They Grow Hair

Certain Ingredients, if Properly Combined, Stimulate Human Hair Growth.

Resorcin is one of the most effective germ destroyers ever discovered. Betanaphthol is a most powerful, yet absolutely safe germicide and antiseptic, which prevents development of germ matter, and creates a clean, healthy condition.

Pilocarpine, although not a coloring matter or dye, is an ingredient well established for its power to restore natural color to human hair.

Borax, because of its well-defined softening and cleansing properties, is most useful in the treatment of scalp and hair diseases. Glycerine acts as a stimulant to the hair bulbs, and has a soothing, healing and nourishing influence. Alcohol is indispensable in medicine because of its antiseptic, stimulating and preservative qualities.

Reckall "32" Hair Tonic is chiefly composed of these ingredients, which are compounded in a peculiar form, and we believe it is the most effective remedy known to medical science for scalp and hair troubles generally. We personally guarantee it to eradicate dandruff and scalp irritations and to grow hair, even though the scalp in spots is bare of hair, providing of course there is life and vitality remaining in the hair roots.

We want every one troubled with scalp disease, dandruff or loss of hair to try Reckall "32" Hair Tonic. If it does not move dandruff and promote a growth of hair to the satisfaction of the user, we will without question or quibble return every cent paid for it. This guarantee is printed on every package. It has effected most satisfactory results in 93 out of 100 cases where it was put to a practical test.

Reckall "32" Hair Tonic is entirely unlike and in every particular different from anything else known of for the purpose for which it is recommended. We urge you to try it at our entire risk. Certainly we could offer no better guarantee. Two sizes, 50 cents and \$1.00. Sold in Salt Lake City only at our stores.—The Reckall Company, The Smith Drug Co., "The Bus Corner," Smith Drug Co., No. 2, 105 South Main street, and Druell & Franken, 271 South Main street.

GIVES CONCERT TONIGHT

Edward Abner Thompson in Recital for Benefit of Reading Room for the Blind.

Indications point to a successful financial event in aid of the reading room for the blind tonight at Barratt hall, when Edward Abner Thompson, the blind reader and singer, will present his literary and musical program, assisted by Spencer Clawson, Jr., at the piano.

The members of the auxiliary, assisted by Mr. Graham, have been working hard to make the affair a success, and it is to be hoped that the public will turn out and swell the fund being raised for such a worthy cause. Aside from the purpose for which the affair is to be given, the event will be an artistic one in a musical and literary way. The program selected by Mr. Thompson is an entertaining one, which will please all classes. Mr. Thompson is a reader of rare power and finish. His presence is that of a man of character and culture. His voice is one in a thousand. His splendid dramatic power is governed by an unerring good taste, which keeps his work at all times true to the laws of art. There is no overdoing of anything. Instead, a sense of the man's reserve power is all the more strongly upon his listener. All the lights and shadows of the poem, all the joy and heartbreak of the story, are brought out in a way that holds the audience spellbound from beginning to end.

All the blind of the city, with their attendants, will be admitted free to the Fifty cents is asked for admission from the public.

The following program will be given: O Isis and Osiris, bass solo from the Magic Flute; Mozart.

GETS A TERMINAL SITE

Western Pacific Seizes Land for Division Point and Townsite at Wendover, Utah.

The last chapter in the fight of the Western Pacific Railroad company for a division point, terminals and townsite at Wendover, Utah, was written yesterday, when Joseph Conley and Thomas Connolly relinquished their homestead entries, and the papers were filed with Secretary Will H. Farnsworth of the state land board. Immediately after the filing of the papers by the two homesteaders, the Wendover tract was selected for the Western Pacific by the land board, and the lands filed upon in the United States land office.

Somewhat of a sensation was caused a few weeks ago when it became known by the land board officials that Conley and Connolly, believed to be brothers, had made homestead entries in the very heart of the tract sought by the Western Pacific company for their division point and terminals at Wendover, which is just within the Utah line from Nevada. That the entries were made for the purpose of holding up the railroad company was

charged, and the board was about to take steps before the department of the interior at Washington to fight the legality of the entries. The entries were made while the land board was waiting for affidavits from the Western Pacific company in regard to the non-mineral land about to be filed upon.

OPPOSES POSTAL BANK.

Salt Lake Banker Says Bill Is Not Necessary.

W. W. Riter, president of the Deseret Savings bank, spoke in direct opposition to the postal savings bank bill, now before Congress, at a meeting of the Utah Association of Credit Men at the Commercial club yesterday. The meeting was combined with a luncheon, to which a dozen bankers and banking men were invited, and after Mr. Riter's talk the question was open for general and generous discussion. The sentiment among the bankers seemed to be divided, and the credit men took no stand one way or the other. Arthur Parsons, president of the association, presided.

Mr. Riter, in a lengthy paper, stated that the government should not enter into the banking business, and that there is no necessity for the passage of the proposed law.

"Bread is Best with Blanchard Butter"

Do Not Blame Your Grocer For the Price of Butter

It is not the grocer who determines the price of the butter he sells; it is not within his power to say what the price shall be.

The price of butter is determined by the "law of supply and demand," coupled with what has to be paid for raw materials and labor.

BLANCHARD BUTTER is 40c Per Pound
OLEOMARGARINE . . is 30c Per Pound

Blanchard Butter Contains

purest Utah cream, bought from Utah farmers whose dairies are regularly inspected. Every gallon of cream is purified by Pasteurization.

Oleomargarine Contains

50 per cent cottonseed oil.
35 per cent oleo oil—made from tallow.
15 per cent neutral lard.

Which Do You Want Your Family to Use

"Bread is best with Blanchard Butter"

Did you ever eat bread and oleomargarine?

Right now the butter supply in this State is 17 per cent short of normal. The price paid farmers for butter fat is higher than ever before.

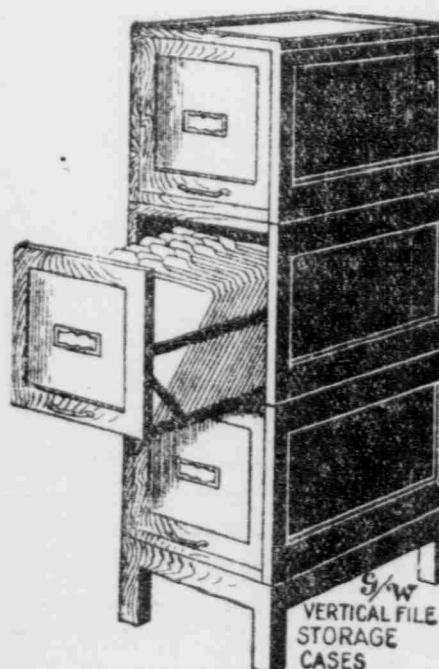

Even though the price of butter has been advanced, the profits to the manufacturer have been narrowed. But the quality of Blanchard Butter remains the same.

REMEMBER THIS—Last year we paid over \$1,000,000 to the farmers of Utah for cream, and over one hundred thousand dollars for labor and supplies
